### COMMENTS

#### COMMENTS TO AUTHORS:

This letter to the editor adds new data to the article recently published in this journal. It is well written and only references should be adapted into the journal's format.

### COMMENTS

#### COMMENTS TO AUTHORS:

The letter highlights the current practice of sedation in the US and would be useful to readers.

### COMMENTS

#### COMMENTS TO AUTHORS:

The authors wrote the short letter on conscious sedation on endoscopic exam for gastrointestinal tract. I think this is not interesting. especially, because the referenced data only shows the percentages of both factors. Further, the number of references are very small. New informations are not found. I cannot accept it.
