COMMENTS TO AUTHORS

To _____ the _____ Authors,
29.05.2013

This cases report entitled "Selective endoscopic ligation for treatment of upper GI protuberant lesions" (Manuscript Number 3792) investigates to explore the clinical value of endoscopic ligation for the treatment of upper gastrointestinal (GI) protuberant lesions in children. Overall study appears to be contributory to the current literature and the manuscript is quite well-written. The language is good. Total length of the manuscript appears to be optimum. The number of figures is sufficient and they are very informative. As a conclusion, the manuscript could be accepted in order to be published _____ in _____ this _____ journal.

Yours sincerely,
