COMMENTS TO AUTHORS

To the authors, Good piece of work, well written. I have some a couple of observations: 1. Page 5, second paragraph : gynecological instead of gynaecological 2. Page 6: Postoperative follow up, first line- 3,6,12 3. Page 6: Statistical analysis. Please write throughout the text (including figures) t-test instead of T-test 4. Page 7: Late postoperative complications , third phrase is confusing, please rewrite it.
