COMMENTS TO AUTHORS

This is an interesting study about the postoperative hemorrhage. In this manuscript, Zhou et al evaluated the clinical results of angiography and embolization for massive gastrointestinal hemorrhage after abdominal surgery. The manuscript is very well written. Only some minor spelling mistake should be corrected.

COMMENTS TO AUTHORS

Review on ESPS NO.4065 Title: Transarterial embolization for massive gastrointestinal hemorrhage following abdominal surgery The manuscript by Zhou et al evaluated the clinical results of angiography and embolization for massive gastrointestinal hemorrhage after abdominal surgery. This retrospective study is a very interesting about postoperative hemorrhage. In this manuscript, the authors study included twenty-six patients with postoperative hemorrhage after abdominal surgery. The data are well present and discussed. 1. Editing is needed for the publicaion. 2. Some spelling mistakes should be corrected.
