COMMENTS TO AUTHORS

I have read with great interest the manuscript entitled "Expression and significance of cyclooxygenase-2mRNA in benign and malignant ascites" by Jin Lu et al. In this manuscript, the authors investigated the mRNA expression of COX-2 in benign and malignant ascites. The data is well present and discussed. Some minor revision are required: 1. Is there any figures for the mRNA expression? If there is any, please add it in the text. 2. Table 2 and 3 canbe deleted, and the data in them should be inserted to the main text. 3. Some minor spelling mistakes should be corrected.

COMMENTS TO AUTHORS

This is an interesting manuscript about mRNA expression of COX-2 in benign and malignant ascites. The authors made a good research on this topic. Differences in COX-2 mRNA expression among different diseases were explored. Minor concern 1. The results should be more detail. The data in tables are good. 2. Some minor language polishing.
