## COMMENTS TO AUTHORS

Gastric cancer is the leading cause of cancer-related death in China, and the mechanism of its carcinogenesis and prognosis remains unclear. The authors attended to investigate the role of COX-2 in gastric cancer. This is well-organised review article. The authors reviewed the COX, its expression in gastric cancer, mechanism of elevated COX-2 expression in gastric cancer, and the mechanism of COX-2 in gastric carcinogenesis. However, if they paid much attention to the internal relationship, importance of their work become remarkable.
