ESPS Peer-review Report

Name of Journal: World Journal of Gastroenterology

ESPS Manuscript NO: 6024

Title: Implication of the nuclear receptor HNF4alpha in the inflammatory network: evidence from the liver to inflammatory bowel diseases.

Reviewer code: 00503608

Science editor: Ma, Ya-Juan

Date sent for review: 2013-09-30 17:35

Date reviewed: 2013-10-14 03:54

COMMENTS TO AUTHORS

In this paper, the authors review the roles of hepatocyte nuclear factor 4-alpha (HNF4α) in inflammatory bowel diseases. The authors describe that no review articles have dealt with the subject yet. The subject matter is interesting and important both scientifically and clinically, and this manuscript is generally well written. I think this manuscript is acceptable for publication in World Journal of Gastroenterology without revision.
