<input type="checkbox"/> Grade E (Poor)	<input type="checkbox"/> Grade D: rejected	<input type="checkbox"/> Existed	<input type="checkbox"/> Minor revision
		<input type="checkbox"/> No records	<input type="checkbox"/> Major revision

COMMENTS TO AUTHORS

It would be better if the authors can add some information such as the clinical effects of Medicinal plant phytochemicals as anti-HCV agents in Table 1.

COMMENTS TO AUTHORS

The section 'MEDICINAL PLANTS AGAINST VIRAL INFECTIONS' in page 5 should be deleted, but some sentences in this section can be written into the next section 'MEDICINAL PLANTS AGAINST HCV' in page 6.

COMMENTS TO AUTHORS

This manuscript describes the unique and interesting theme of anti-HCV reagents from plants. The provided information would be helpful for development of anti-viral reagents and seems to be worthwhile for readers. Thus, this manuscript has enough priority to publication.

COMMENTS TO AUTHORS

The manuscript does a good job of summarizing medicinal plants and their phytochemicals which inhibit different stages of HCV life cycle and discuss their potential use in HCV therapy. The reviewer believes that the contents would give significant information to the readers in WJG. In addition, this manuscript is well written. P.s.: The references should conform to the format used in WJG.
