COMMENTS TO AUTHORS

The manuscript by Laurent Peyrin-Biroulet is a well prepared and well written contribution to WJG. It's content is well discussed and data are prepared accordingly. The content in its present format merits publication in the world-leading journal WJG. Minor Comments. Figure 1 should be provided by the microscopy end magnifications or scale bars; and the figures should be provided with relevant artwork to denote the histological changes of interest.

COMMENTS TO AUTHORS

The work is interesting. However, you should avoid repeating points that have already been published recently in the review of Dyson JK, et al. in this journal. This review should be complementary and not repeat information published recently. Dyson JK, Rutter MD. Colorectal cancer in inflammatory bowel disease: what is the real magnitude of the risk? World J Gastroenterol. 2012 Aug 7; 18 (29) :3839-48 "
