COMMENTS TO AUTHORS

Dear Editor, I reviewed the manuscript by Pescatori et al., entitled "failed stapled rectal resection in a constipated patient with rectal aganglioneurosis". This case report is well written and may be interesting for the reader of the journal. Accordingly, it can be published after minor language revision. With regards Mohamed Hassan

COMMENTS TO AUTHORS

The authors reported a peculiar and interesting case of a woman suffering from chronic constipation and controversial findings met throughout the diagnostic iter. However, several minor revision must be taken on by the author.
