COMMENTS TO AUTHORS

The author presents a very elaborate and interesting review of the history of H. pylori related diseases. 2. The review is too long and should be condensed. 3. There are some grammatical mistakes. 4. The references are duplicated before and after Figures. 5. The legends in the figures is very elaborate. It can be put in the text with brief legend with the figure. 6. some figures are reproduced with permission whereas some it is not clarified (fig.2/4 etc)
