<input type="checkbox"/> Grade D (Fair)	<input type="checkbox"/> Grade D: rejected	<input type="checkbox"/> Existed	<input type="checkbox"/> Minor revision
<input type="checkbox"/> Grade E (Poor)		<input type="checkbox"/> No records	<input type="checkbox"/> Major revision

### COMMENTS TO AUTHORS

Very interesting manuscript about feasibility of lectin microarray in differentiating gastric cancer from gastric ulcer. It can be accepted for publication after minor revision. 1 The references should be numbered. 2 The results are very interesting. 3 Discussion should be re-organized.

## COMMENTS TO AUTHORS

The manuscript entitled "Application of lectin microarray to differentiating gastric cancer from gastric ulcer" by Huang et al is very interesting. In this manuscript, the authors try to investigate the feasibility of lectin microarray in differentiating gastric cancer from gastric ulcer. The research is well design, and the results are interesting. Some minor revisions should be made. 1 The references should be numbered in order. 2 Some minor language polishing needed.

## COMMENTS TO AUTHORS

Review on Manuscript No. 6335 Title: Application of lectin microarray to differentiating gastric cancer from gastric ulcer Comments: The paper is very interesting. But the format should be updated accordingly, such as the references, the figures and table. And the discussion section should be more focus on the results.
