COMMENTS TO AUTHORS

Very interesting case report, it can be published in the journal after minor correction. 1 abstract should be re-arranged, the paper is a case report not a research article. 2 The cases are very discussed, but should be more focused on. 3 Some minor language polishing should be corrected.

COMMENTS TO AUTHORS

The manuscript by Wang et al reported two cases of RLPS induced by bevacizumab plus chemotherapy. The manuscript is very well written. Minor revisions required. 1. The title should be revised. "colorectal cancer" should be included in the title. 2. Discussion section should be re-arranged. 3. Some minor spelling mistakes should be corrected.

COMMENTS TO AUTHORS

This is a very interesting case report. In my opinion, it can be accepted for publication. Some minor corrections about the spelling mistake should be made.
