COMMENTS TO AUTHORS

To the authors, Good piece of work, well written, and I have no comments except that your manuscript is suitable to be published. Your English is much better than mine (understandable) ; however, there is a need for a comma, page 4, first paragraph , line 4, before respectively.

COMMENTS TO AUTHORS

This is a meaningful retrospective review that merits publication but : 1. Please clarify the presentation of Figures 1,2 3 and 5--it is difficult to tell which line goes with which group 2.In Figure 5 Y axis clarify if it is representing cirrhosis or cirrhotic deaths per 100K admissions--unclear at present
