COMMENTS TO AUTHORS

Very interesting, complete and well written paper. I would suggest to enlarge briefly the introduction, including a more general discussion on Chron disease, with a deeper focus on the role of radiology, in both diagnosis and treatment (Interventional radiology). I really believe that in the multidisciplinary approach to this disease radiologists plays a crucial role, and shoul be mentioned. I suggest some references on the role of radiology in diagnosis and treatment. 1. Fiorino G, Bonifacio C, Malesci A, Balzarini L, Danese S.
