### COMMENTS TO AUTHORS

This meta-analysis study is well structured and has a great scientific concern. However, I have some particular issues with the study methods.

## COMMENTS TO AUTHORS

The paper is original and provides an important contribution to the H. pylorii therapeutics in China. Minor changes are required, including a typing and English review, if possible by a native English speaker. Review of the Paper "Eradication rates for Helicobacter pylori infection in China: systematic review and meta-analysis of standard triple therapy" Abstract: - Background: o Please write the meaning of the acronym "PPI" o "clarithromycin" is mistyped - Aim: o Delete "thereby providing a glimpse of the changing eradication rates of this standard regimen in China" - Methods: o Please write the meaning of the acronym "VIP" - Results: o There is controversy if IC95% that include the RR = 1 should be considered "marginally superior" Text Body: - Methods: o The specific search algorithm used for each database should be provided, (e.g.: PubMed - ("helicobacter pylori"[MeSH Terms] OR ("helicobacter"[All Fields] AND "pylori"[All Fields]) OR "helicobacter pylori"[All Fields]) AND ("amoxicillin"[MeSH Terms] OR "amoxicillin"[All Fields]) AND ("clarithromycin"[MeSH Terms] OR "clarithromycin"[All Fields]) AND triple[All Fields]) o Exclusion criteria should be provided
