COMMENTS TO AUTHORS

Title: Totally laparoscopic gastrectomy for gastric cancer: a systemic review and meta-analysis of perioperative and long term outcome compared with open surgery. This manuscript is interesting. However, I feel there are some problems in this article. (1) I could not find Figure 2-9 in this manuscript using my personal computer. Is this system error? Figure 2-9 were indicated as black box. (2) Author should indicate the mean value of operative time, blood loss et al. in Table 4.
