COMMENTS TO AUTHORS

This review article shows interesting and helpful views in the application of OGF for pancreatic cancer. I like to give some suggestions as follows: 1. It is not suitable to show data in review article. Please give the main action(s) of OGF or OGF α for anticancer. 2. Is this product applied for pancreatic cancer only? How about another tumor? 3. Non-toxic and safe biotherapy of this product needs more references to support. 4. Authors cited too much of their publications. Please add others. 5. Specific inhibition of pancreatic cancer was not discussed in detail.

COMMENTS TO AUTHORS

This is a very interesting review about opioid growth factor in the treatment of pancreatic cancer. The manuscript is very well written.
