COMMENTS TO AUTHORS

I think it is a publishable review, but suggest discussing neo-adjuvant chemotherapy for CRC among elders a little bit.

COMMENTS TO AUTHORS

Nice review of the management of elderly patients with colorectal cancer. I think the review of clinical trial data is quite good. However the review of relevant research regarding treatment patterns and staging appears lacking. Maybe a more comprehensive review would help. Would also recommend describing how one could use the geriatric assessment you discussed. Overall a very nice paper.
