COMMENTS TO AUTHORS

This is a good review article about the endoscopic treatment for gastroparesis. The authors dealt with various methods of endoscopic treatment, including new upcoming methods. 1) If a table summarizing the characteristics, outcome, pros and cons of each method was added, this article gives readers well-organized information. 2) Reference and citation styles should be corrected.

COMMENTS TO AUTHORS

I have had the opportunity to review this interesting manuscript, focused on new endoscopic treatment of gastroparesis. The authors have made a very good revision, very clear and easy to read. So I have any comment to do
