## COMMENTS TO AUTHORS

This is an interesting manuscript. In this manuscript, the mechanisms by which integrin  $\alpha\beta 6$  sustains and promotes tumor invasive growth in colon cancer progression is identified. The study design is good, and the results are interesting. Some minor suggestions: 1 There is no abstract, the authors should add it. 2 The text need editing about the format and English. 3 Figures are not very clear, please check them. 4 Reference list should be checked and updated.
