### COMMENTS TO AUTHORS

The manuscript presented briefly the concept and evolution of theranostics , highlight many applications of theranostics in daily practice and discussed future perspectives and aspects of this model in gastro-intestinal cancers. And the editorial introduced the most recent updates and perspectives on theranostics in gastro-intestinal cancers.

### COMMENTS TO AUTHORS

The manuscript is nicely written and clearly structured. However, it is very short and does not provide in-depth information. If this is an introduction to a themed issue (such as an editorial or similar), it is in my opinion acceptable for publication.
