COMMENTS TO AUTHORS

This paper analysed the application value of intraperitoneal local anestheticson after LC. The article was valuable to clinical doctor and the way of meta-analysis was proper. But there were some defect need improve: 1. The English of this paper needs polishing in some aspects 2. In your discussion depart you indicated "IPLA did not significantly reduce parietal pain in present review". This results was not identical to some research. But you didi not analyse the possible reason which needs discussion.

COMMENTS TO AUTHORS

1.- The title should be no more than 12 words. 2.- Please correct Abstract in the Methods section with a proper syntax. The preposition "as" has to be changed with a more appropriate word: "with placebo or nothing (in) as intraperitoneal administration...", same in the complete manuscript. 3.- In the same section, before the abbreviation "CL", the complete meaning has to be written. 4.- Please specify a primary time point for pain evaluation in the Results section of the Abstract. 5.- A Citation after Core Tip must be addressed as required in the "Instruction for Authors". The citation contains authors' names and title, For example, an article by Jae Moon Yoon, Ki Young Son, Chun Sick Eom, Daniel Durrance, Sang Min Park will be written as Yoon JM, Son KY, Eom CS, Durrance D, Park SM. Preexisting diabetes mellitus increases the risk of gastric cancer: A meta-analysis. 6.- In the first paragraph of the Introduction, the fourth reference is repeated twice just at the end. Please correct the references to avoid this kind of redundancy. 7.- There is irregularity in the presentation forms of P values in all manuscript, with the number of spaces. 8.- In the Discussion section, in the fourth paragraph, there is an error in the spelling of Valsalva. Please correct it properly. 9.- When the

conclusion of the discussion within sets, try to include measurement time information regarding the variable pain at resting and dynamic state. 10.- The Journal Title has to be written in its abbreviated form (as shown in PubMed). Please omit the place/city of publication if it is a journal reference, like in reference 1. 11.- Please clarify the number in parenthesis references in Tables 2-6, in the "Study Name" column. Detailed legends should not be included under tables, instead having the information presented in the main text where applicable; the information should complement, but not duplicate the text. Use one horizontal line under the title, a second under the column headings, and a third below the Table to be above any footnotes. Vertical line and italics should be omitted.
