<input type="checkbox"/> Grade D: Fair	<input type="checkbox"/> Grade D: Rejected	BPG Search:	<input type="checkbox"/> Minor revision
<input type="checkbox"/> Grade E: Poor		<input type="checkbox"/> Existing	<input type="checkbox"/> Major revision
		<input type="checkbox"/> No records	

### COMMENTS TO AUTHORS

1. Surgical operation imposes a burden on patients, especially in young. Was the endoscopic treatment tried first? If not, the reason should be described that authors did not consider endoscopic treatment first. 2. Did the patient undergo cholecystectomy for stones? What kind of damage occurred to common bile duct at cholecystectomy? Author should describe a little more details about the first operation.

### COMMENTS TO AUTHORS

It is a good paper introduced a case of repair of bile duct injury using robotic assisted hepaticojejunostomy with detailed data.
