COMMENTS TO AUTHORS

The manuscript entitled "Intestinal histoplasmosis in immunocompetent adults" by Zhu et al is very interesting. In this manuscript, the authors summarized the characteristics of 4 cases of immunocompetent adults with intestinal histoplasmosis. Although the cases are little, but it's interesting. After a revision, this manuscript can be accepted for publication. 1 The abstract should be re-arranged. The methods should be more detail. 2 The introduction is not so good. Please introduction the back ground with more references. 3 Results are interesting. But please change the title "conclusion" to "discussion". 4 References need to be updated. And more references need to be added and discussed. 5 Some minor language polishing need to be revised. A native English speaker needed.
