## COMMENTS TO AUTHORS

This is a well-written manuscript and a very interesting case report. Minor points. 1. Discussion is too long and should be shortened. 2. Another relevant case report [Pathol Int. 2009 Nov;59(11):817-22. doi: 10.1111/j.1440-1827.2009.02451.x.] should be commented in the discussion section. 3. There are a few grammatical errors eg. 'Minor Criterion' instead of 'Minor criteria' and 'agressive' instead of 'aggressive'

## COMMENTS TO AUTHORS

This paper shows a rare case of systemic mastocytosis with non-cirrhotic portal hypertension. This is very interesting, and will be acceptable for publication except one. 1, Please show exactly the data in 'case report' according to WHO diagnostic criteria for SM.
