COMMENTS TO AUTHORS

This is a very well written review on "Advanced Gastrointestinal Endoscopy for Inflammatory Bowel Diseases" basically focused on non interventional management of IBD. I would emphasize it and make the title more relevant to the text itself. Endoscopic interventions are also very important for the management of IBD. Adding some figures about the described tools and techniques would add more to educational value of the paper. Respectfully

COMMENTS TO AUTHORS

1.Abstract section: The authors should not use abbrev. such as IBD in this section. 2.Key words: colorectal cancer can be omit. 3. Molecular imaging section could be omit. 4.The authors can add a sharp conclusion paragraph will be better
