COMMENTS TO AUTHORS

This is an interesting paper and well written. The current results will be great helpful to the surgical fields when evaluating the benefits and costs of alternative blood-management technologies during liver resection. In my opinion, it should be accepting for publication without alter.

COMMENTS TO AUTHORS

Article Use of a Saline-Coupled Bipolar Sealer in Open Resection for Hepatic Liver Malignancy: Medical Resource Use and Costs, is a good job, well presented, meets the criteria for publication. Suggestions: Tables 2 and 4 are very full of information. They can be divided into two?
