COMMENTS TO AUTHORS

The paper by Zakeri & Pollok entitled "Diagnostic imaging and radiation exposure in Inflammatory Bowel Disease" is a review about the main imaging investigations for IBD. Furthermore, the risk of high radiation exposure in this subset of patients is reviewed. It is an excellent paper, the language is proper, the analysis of data from literature is exhaustive. The paper can be accepted as it is. Congratulations to the Authors.

COMMENTS TO AUTHORS

Good review of the current literature.
