## COMMENTS TO AUTHORS

The article is aimed to discuss the current limitations, the future potential of magnetic anchor guidance systems-endoscopic submucosal dissection and the developments needed for adoption of this technology. The title is "Magnetic Anchor Guidance for Endoscopic Submucosal Dissection and Other Endoscopic Procedures". 1. Please add more details of the dis-advantages of this technique. 2. What are the new knowledges from this study? 3. The clinical application of the study is very important. Please also recommend the readers "How to apply this knowledge for routine clinical practice?".
