This is a study on mechanism of YCHD for OJ. Once I studied liver regeneration in OJ rats, so I am very interested in this paper. I have two comments. 1. I used Wistar rats though, rats often had internal fistulas and jaundice disappeared spontaneously. Was there any such example in group Y? 2. Clinically, biliary drainage is performed for patients with obstructive jaundice. From this study, how do you think YCHD will affect it?

#### **SPECIFIC COMMENTS TO AUTHORS**

I have reviewed the manuscript entitled “ Study on the mechanism of Yinchenhao decoction in treating obstructive-jaundice-induced liver injury based on the Nrf2 signaling pathway ” to be published in the “ World Journal of Gastroenterology ” and I think it’s well designed and has enough priority for publication with few spelling mistakes. I recommend that this work be accepted for publication. Best regards,
