SPECIFIC COMMENTS TO AUTHORS

1. Authors attempt to highlight the importance of LST and molecular mechanism in CRC is an other attempts towards new pathogenesis and newer therapeutic approach to the CRC. 2. Articles and References are two long and two many as it is an editorial. Historical and background literature and the refences may be removed and directly discuss the molecular pathway of CRC. 3.Title should be modified as " A Newer Molecular mechanism of CRC and its future therapeutic implications" 4. Contents of the Figure 2 and Figure 3 may be incorporated in the text . 5. Spelling and Grammar needs significant Policing
