The authors have submitted an editorial on an important topic of HLA antibodies and HLA/KIR genetic testing in liver transplant. Although the article discusses the findings of most of the relevant studies, but a table summarizing the salient features of these studies would be beneficial for the readers.

SPECIFIC COMMENTS TO AUTHORS

This is a review article on the role of the HLA antibodies and HLA/KIR genes in liver transplantation. I have comments. 1. Put the number of pages and lines for the reviewer's reference. 2. (Abstract page, the 3rd line from the bottom) CM need an explanation. 3. From where does the body start? 4. Arrange the body. Please put the subsection to the body of the text.
