SPECIFIC COMMENTS TO AUTHORS

I had the opportunity to review a paper “Outcomes of endoscopic sclerotherapy with lauromacrogol/ α -butyl cyanoacrylate injection for jejunal varices at the site of choledochojejunostomy: A single-center experience (with video)”, and I found very interesting. There is no problem to publish the manuscript.

SPECIFIC COMMENTS TO AUTHORS

The authors report the treatment of jejunal varices with bleeding by endoscopy sclerotherapy by injection of lauromacrogol/alpha-butyl cyanoacrylate. The complication is difficult to be diagnosed and timely treated. the cases report refer only to three patients, as the authors themselves recognize. The manuscript is well written and merit to be published due to the suggested new treatment, the difficulty in diagnosing and the multidisciplinary approach, difficult to be organized
