

PEER-REVIEW REPORT

Name of journal: *World Journal of Diabetes*

Manuscript NO: 79599

Title: Combination therapy of hydrogel and stem cells for diabetic wound healing

Provenance and peer review: Invited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer's code: 05536533

Position: Peer Reviewer

Academic degree: MS, PhD

Professional title: Academic Research, Assistant Professor, Research Associate

Reviewer's Country/Territory: India

Author's Country/Territory: China

Manuscript submission date: 2022-08-28

Reviewer chosen by: AI Technique

Reviewer accepted review: 2022-08-28 17:01

Reviewer performed review: 2022-08-28 17:04

Review time: 1 Hour

SPECIFIC COMMENTS TO AUTHORS

I would like to congratulate the authors for the manuscript. This manuscript summarizes the mechanisms and applications of stem cells and hydrogels for diabetic wound treatment. I have some comments: Please move the figure (Figure 1) into the body of manuscript, not in the conclusion. The conclusion should provide the concluding remarks of your manuscript, in brief. References no 82-86 are not available in the text, and only available in the table. They should appear sequentially in the text or table.
