SPECIFIC COMMENTS TO AUTHORS

Dear Dr. Ping Wan and Co-authors, Subject: Review of "A Single-Center Retrospective Study of The Diagnostic Value of DBE in Meckel Diverticulum with Bleeding" I have reviewed your manuscript on the diagnostic value of DBE in Meckel Diverticulum (MD) with bleeding. Here are my key observations and recommendations: Originality: Your study makes a significant contribution to gastroenterology, especially in highlighting DBE's utility in MD diagnosis. Methodology: The retrospective analysis is well-executed. However, a detailed biostatistical review is recommended for enhanced validity. Gender Disparity: The gender imbalance in the study sample is notable. Further discussion on this aspect could be beneficial. Ethical Compliance: The ethical approval is noted and appreciated. Language Quality: The manuscript is well-written and clear, as per your consultation with a native English speaker. Clinical Implications: The study provides valuable insights into the clinical management of MD with bleeding. A brief discussion on future research directions would be useful. Presentation: Consider including figures or tables for summarizing key findings. In conclusion, after addressing the need for a biostatistical review and considering the above points, the manuscript will be
