SPECIFIC COMMENTS TO AUTHORS

I have received for review a case control study entitled "The impact of Alcian blue and periodic acid-Schiff expression on the clinicopathological features and prognosis of gastric signet ring cell carcinoma" which is being processed for publication in this journal. 1. Please correct the phrase "key word". 2. Introduction section - provide a comprehensive review of the main issues associated with the chosen topic 3. Materials and methods - I suggest the introduction of a chart outlining the inclusion and exclusion criteria. Results - well systematized 5. Discussion - I suggest the authors to introduce similar clinical studies 6. Study limitations missing 7. Conclusion section is missing. 8. Figure 3 - I suggest splitting this figure into several images to increase its livability.
