

PEER-REVIEW REPORT

Name of journal: *World Journal of Gastrointestinal Oncology*

Manuscript NO: 90156

Title: Identification of a Novel Inflammatory-Related Gene Signature to Evaluate the Prognosis of Gastric Cancer Patients

Provenance and peer review: Unsolicited Manuscript; Externally peer reviewed

Peer-review model: Single blind

Reviewer's code: 00068348

Position: Editorial Board

Academic degree: MD, PhD

Professional title: Surgeon

Reviewer's Country/Territory: Greece

Author's Country/Territory: China

Manuscript submission date: 2023-11-25

Reviewer chosen by: AI Technique

Reviewer accepted review: 2023-12-02 06:53

Reviewer performed review: 2023-12-05 19:11

SPECIFIC COMMENTS TO AUTHORS

The article deals with a novel inflammatory-related gene signature in order to evaluate the prognosis of gastric cancer patients. The whole set up of the study is well constructed. The number of patients included is satisfactory. A large number of genes analyzed. Graphs and tables contribute to further understanding of the information provided. To my opinion this article contributes ideally to a descriptive manner to the role of the gene signature in the prognosis of gastric cancer
