COMMENTS TO AUTHORS

The authors present in this interesting paper the potential role of Fuloxetine against Colon cancer. The data provided by authors are very promising and warrant further investigation. Overall the manuscript is very well written and well organised. The language is satisfactory and the figures are well structured. My final decision is accept it without any changes or corrections.

COMMENTS TO AUTHORS

Well written review of treating colon cancer with fluoxetine. The authors propose an interesting concept that fluoxetine may impact cancer metabolism.
