## COMMENTS TO AUTHORS

In this manuscript, authors provided an update on the status of "blood-based biomarker for early diagnosis and surveillance of colorectal cancer". This review paper covers recent topics, and is concisely written. The information given is helpful to promote the further advance in early diagnosis and surveillance of colorectal cancer. This reviewer has no essential criticism to the contents.

**COMMENTS TO AUTHORS**

The paper is very good and complex. The authors thoroughly explained the problem of of blood-based biomarkers for early diagnosis and surveillance of CRC. This paper is a unique connection between basic research and clinical application. This review paper deserves to be published in World Journal of Gastrointestinal Oncology.
