COMMENTS TO AUTHORS

1. I suggest that the authors best describe the diagnosis of tuberculosis, conducted ZN staining? 2. If possible, update references 2013-2014.

COMMENTS TO AUTHORS

This paper is the first report of synchronous adenocarcinoma and lymphoma with tuberculosis. The significance of synchronous three diseases is not clear in the discussion. The impact of this paper is small.

COMMENTS TO AUTHORS

Why didn't the Authors prescribe a stadiation TC and an adjuvant CHT?
