COMMENTS TO AUTHORS

The authors reviewed about the management of malignant biliary stricture. The facts about stenting or other therapies are not notable, however the authors summarized recent advances for the treatment of malignant biliary stricture concisely. If the space is available, one or two tables for summarized the comparisons of the effects of various biliary stents are helpful for readers. minor point: Intrahepatic Biliary Obstruction section, page8 fourth paragraph, "sent" to "stent".
