COMMENTS TO AUTHORS

The authors report a rare case of adenosquamous pancreatic carcinoma (ASPC) arising in a FAMMM patient who is a carrier of CDKN2A germline mutation. Although it is well known that FAMMM patient has a high risk of occurring pancreatic carcinoma, ASPC arising in a background of IPMN has rarely been reported. Therefore the paper may enrich our knowledge on FAMMM associated pancreatic tumor. There are quite a few misspellings in the manuscript.
