### SPECIFIC COMMENTS TO AUTHORS

The m/s describes a case report of endoscopic management of a patient with massive rectal bleeding from a Dieulafoy's lesion. The work is well-described and the m/s can be accepted for publication after a correction of "Dieulafoy's" (lines 14, 59 and 88) and

correct alignment of the fifth column in Table 1.

### SPECIFIC COMMENTS TO AUTHORS

The authors in this case report and literature review present a case of rectal Dieulafoy lesion and the associated massive bleeding. It is a well written report, however rectal Dieulafoy even though rare is a well known entity and unfortunately, the current report

does not add any new information to what is already know about this condition limiting the enthusiasm for publication. Few other comments: Recommend consolidating the case report section in one paragraph instead of multiple sub headings. Several typographical and grammatical errors noted through out the text, recommend proof reading of the manuscript by a native English speaker.
