This is a compelling study. However the details of English grammar and phraseology must be improved. . The manuscript should be polished by an English linguist or an English language service could be used. Details of author-pays services can be found, for example, at: <http://www.proof-reading-service.com/>. Examples - cases due bulky volumes. It is largest diameter of every specimens natural extraction and contrary, the procedure reported cases with owns all demonstrate intracorporeal anastomosis let to avoid mini colectomy the specimen was tried to extract through Laparoscopic colectomy is going on to increase supporters. It lets smaller compromise the magic of the laparoscopic surgery and 'magic' is not scientific. only 12 cases reported yet (2 - 4 specimens were intended to remove proximally in the colon till released and the intraperitoneal complete free the all remnant colon under laparoscopic stapler and the tinny remnant of Do you mean tiny? Tinny refers to tin, an element symbol Sn (for Latin: stannum). resections, here we defined a right - hemicolectomy specimen could be extracted
