COMMENTS TO AUTHORS

Comment: 1. demographic data of the patient are lacking (age, sex, race, BMI, co-morbidities) 2. please state the intent to treat : bridge procedure to surgery, definitive procedure, planning time of treatment setting 3. details on the balloon (filling volume at the procedure etc) 4. comment the surgical approach : why not laparoscopy ! 5 the position and removal of the balloon was carried out in outpatient setting, sedation or general anesthesia? This case report should be published after the minor modifications suggested.
