COMMENTS TO AUTHORS

Major comment 1. Is this article a simple review or review with meta-analysis? In the Study selection, author described how they obtained articles for review. However, they didn't sufficiently analyze and review about obtained articles. 2. The content of "Malignant gastric outlet obstruction due to gastric cancer" is overlapped with "Introduction". 3. I couldn't get author's point in this article. Author need to choose appropriate subtitle.

COMMENTS TO AUTHORS

1. It should be a structure abstract, no like a background. 2. The "INTRODUCTION" should be simplified. Some content have been showed in "MALIGNANT GASTRIC OUTLET OBSTRUCTION DUE TO GASTRIC CANCER" and "TREATMENTS FOR GASTRIC OUTLET OBSTRUCTION" sections.
