#### **SPECIFIC COMMENTS TO AUTHORS**

The manuscript is a revision. It has errors of language and writing. In page 6 there is  $p < 1,05$ . Is it correct? In page 7 is said: "...was conducted by another study by\_\_\_" Some words or names were lost. There are others minor errors that should be revised. The paper is simple but it is very good to think about esophageal motility in patients with hepatic disease.
