## COMMENTS TO AUTHORS

A review paper on liver transplantation for Alcoholic Liver Disease. It would be important: 1) to present more details of the literature data; and 2) to add the ethical aspects of LDLT indication for alcoholic patients. The English language needs revision.

## COMMENTS TO AUTHORS

authors concisely summarized the current data on the problems of liver transplantation for alcoholic liver disease and recidivism. my minor comments are: \*title should be shortened by emphasising the problem of recidivism. \* there are repetition of knowledge even sentences in sections of the manuscript, these should be avoided.
