

**ESPS Peer-review Report**
**Name of Journal:** World Journal of Hepatology

**ESPS Manuscript NO:** 9210

**Title:** Liver involvement in systemic infection

**Reviewer code:** 00159662

**Science editor:** Ling-Ling Wen

**Date sent for review:** 2014-01-27 22:19

**Date reviewed:** 2014-01-28 05:23

CLASSIFICATION	LANGUAGE EVALUATION	RECOMMENDATION	CONCLUSION
<input type="checkbox"/> Grade A (Excellent)	<input checked="" type="checkbox"/> Grade A: Priority Publishing	Google Search:	<input type="checkbox"/> Accept
<input type="checkbox"/> Grade B (Very good)	<input type="checkbox"/> Grade B: minor language polishing	<input type="checkbox"/> Existed	<input type="checkbox"/> High priority for publication
<input checked="" type="checkbox"/> Grade C (Good)	<input type="checkbox"/> Grade C: a great deal of language polishing	<input type="checkbox"/> No records	<input type="checkbox"/> Rejection
<input type="checkbox"/> Grade D (Fair)		BPG Search:	<input type="checkbox"/> Minor revision
<input type="checkbox"/> Grade E (Poor)	<input type="checkbox"/> Grade D: rejected	<input type="checkbox"/> Existed	<input type="checkbox"/> Major revision
		<input type="checkbox"/> No records	

**COMMENTS TO AUTHORS**

Liver involvement in systemic infection Section introduction: Subsection Bacterial infections 1. It would be interesting to mention together with Kanai et al also the isolates found by Pliakos et al in Surg Infect (Larchmt). 2013 Nov 28. Subsection Pelvic inflammatory disease (PID) 2. The authors should mention the multiple liver abscesses formed when intrauterine devices are infected Subsection Amebiasis 3. The authors should consider the article in J Med Case Rep. 2008 Oct 12;2:325. doi:
